

# Northwind Freight

## Delivery confirmation — order 48291

6 September 2026

To: operations desk, Duisburg terminal.

The shipment left Busan on 4 September and is booked on the 11 September rail window.  
This is a flow document: one convert, **three hashes**, GPU-free. Run **prove** twice with the same fonts and the PDF/<sup>A</sup> bytes match *byte-for-byte*. Agents **guess**. Wet cargo is H<sub>2</sub>O only.

Replay is evidence. Same fonts, same bytes.

docagent prove examples/letter.md

| Hop    | File                           | Proof          |
|--------|--------------------------------|----------------|
| Input  | letter.md                      | input SHA-256  |
| Plan   | layout i32 @ 1/7200 in         | plan SHA-256   |
| Output | PDF/ <sup>A</sup> · HTML · ODT | output SHA-256 |

Please confirm before 09:00 local:

- Receiving dock is clear
- Bay 4, H<sub>2</sub>O seals intact
- Capsule hashes travel with the files
- ☐ Replay the convert instead of hoping

Agent replay:

1. Hash the input
2. Run Convert
  - PDF/<sup>A</sup>
  - HTML
3. Compare the capsule

DocAgent runtime — DOCX · ODT · Markdown · HTML · PDF/<sup>A</sup>. Seals: H<sub>2</sub>O.
